VOLUME 36 Annual Index

A

Allen, Ralph C., and **Jack H. Stone.** Textbook neglect of the constant coefficient. 36 (4): 379–84.

Anstine, Jeff, and **Mark Skidmore.** A small sample study of traditional and online courses with sample selection adjustment. 36 (2): 107–27.

B

Becker, William E., and **William H. Greene.** Using the Nobel Laureates in economics to teach quantitative methods. 36 (3): 261–77.

Becker, Anthony D. Online resource for antitrust and industrial organization courses: Antitrust case summary browser. 36 (1): 99.

Bellisimo, Yolanda. *See* Maxwell, Nan L.

Bergstrom, Theodore C., and **Eugene Kwok.** Extracting valuable data from classroom trading pits. 36 (3): 220–35.

Bolton, Roger E. Computer simulation of the Alonso household location model in the microeconomics course. 36 (1): 59–76.

Bosshardt, William, and **Michael Watts.** Teachers' undergraduate coursework in economics in the *Baccalaureate and Beyond Longitudinal Study*. 36 (4): 400–06.

Broughton, Amy. *See* Smith II, Harlan M.

Brouhle, Keith, Jay Corrigan, Rachel Croson, Martin Farnham, Selhan Garip, Luba Habodaszova, Laurie Tipton Johnson, Martin Johnson, and **David Reiley.** Local residential sorting and public goods provision: A classroom demonstration. 36 (4): 332–44.

C

Chen, Edward K. Y. Teaching and learning development economics: Retrospect and prospect. 36 (3): 236–48.

Cheung, Stephen L. A Classroom entry and exit game of supply with price-taking firms. 36 (4): 358–68.

Colander, David. What economists teach and what economists do. 36 (3): 249–60.

Copley, Jaime. *See* Smith II, Harlan M.

Corrigan, Jay. *See* Brouhle, Keith.

Croson, Rachel. *See* Brouhle, Keith.

D

Dittmer, Timothy. Diminishing marginal utility in economics textbooks. 36 (4): 391–99.

Dixit, Avinash. Restoring fun to game theory. 36 (3): 205–19.

E

Eckel, Catherine, Melayne Morgan McInnes, Sara Solnick, Jean Ensminger, Roland Fryer, Ronald Heiner, Gavin Samms, Katri Sieberg, and **Rick Wilson.** Bobbing for widgets: Compensating wage differentials. 36 (2): 129–38.

Ensminger, Jean. *See* Eckel, Catherine.

F

Farnham, Martin. *See* Brouhle, Keith.

Fryer, Roland. *See* Eckel, Catherine.

Fryer Jr., Roland G., Jacob K. Goeree, and **Charles A. Holt.** Experience-based discrimination: Classroom games. 36 (2): 160–70.

G

Garip, Selhan. *See* Brouhle, Keith.

Goeree, Jacob K. *See* Fryer Jr., Roland G.

Goffe, William L., and **Kim Sosin.** Teaching with technology: May you live in interesting times. 36 (3): 278–91.

Greene, William H. *See* Becker, William E.

H

Habodaszova, Luba. *See* Brouhle, Keith.

Halteman, James. Externalities and the Coase theorem: A diagrammatic presentation. 36 (4): 385–90.

Harris, R. Scott. Linear programming graphic tutorial. 36 (1): 100.

Heiner, Ronald. *See* Eckel, Catherine.
Hey, John D. On my Web site, I teach economics, not algebra and calculus. 36 (3): 305.
Hey, John D. I teach economics, Not algebra and calculus. 36 (3): 292–304.
Holt, Charles A. *See* Fryer Jr., Roland G.

I

Isely, Paul, and **Harinder Singh.** Do higher grades lead to favorable student evaluations? 36 (1): 29–42.

J

Johnson, Laurie Tipton. *See* Brouhle, Keith.
Johnson, Martin. *See* Brouhle, Keith.

K

Kasper, Hirschel. Peer to peer: Right and wrong lessons for department reviews. 36 (2): 185–97.
Kennedy, Peter E. Oh no! I got the wrong sign! What should I do? 36 (1): 77–92.
Knowlton, Dave S. *See* Sharp, David C.
Krohn, Gregory A., and **Catherine M. O'Connor.** Student effort and performance over the semester. 36 (1): 3–28.
Kwok, Eugene. *See* Bergstrom, Theodore C.

L

Levy, David M. *See* Peart, Sandra J.
Liu, Liqun, and **Andrew J. Rettenmaier.** A Graphical exposition of the link between two representations of the excess burden of taxation. 36 (4): 369–78.

M

Maxwell, Nan L., John R. Mergendoller, and **Yolanda Bellisimo.** Problem-based learning and high school macroeconomics: A comparative study of instructional methods. 36 (4): 315–31.
McInnes, Melayne Morgan. *See* Eckel, Catherine.
Melican, Claire. *See* Scahill, Edward M.
Mergendoller, John R. *See* Maxwell, Nan L.
Mixon Jr., J. Wilson. Analyzing subsidies in Microsoft Excel. 36 (2): 199.

O

O'Connor, Catherine M. *See* Krohn, Gregory A.

P

Peart, Sandra J., and **David M. Levy.** Valuing (and teaching) the past. 36 (2): 171–84.
Pickhardt, Michael. Teaching public goods theory with a classroom game. 36 (2): 145–59.

R

Reiley, David. *See* Brouhle, Keith.
Rettenmaier, Andrew J. *See* Liu, Liqun.
Round, David K., and **Martin Shanahan.** Perspectives on teaching economics from around the globe. 36 (3): 203–04.

S

Sabatini, Fabio. Resources for the study of social capital. 36 (2): 198.
Samms, Gavin. *See* Eckel, Catherine.
Scahill, Edward M., and **Claire Melican.** The preparation and experience of advanced placement in economics instructors. 36 (1): 93–98.
Shanahan, Martin. *See* Round, David K.
Sharp, David C., Dave S. Knowlton, and **Renée E. Weiss.** Applications of generative learning for the survey of international economics course. 36 (4): 345–57.
Sieberg, Katri. *See* Eckel, Catherine.
Siegfried, John J. Trends in undergraduate economics degrees, 1991 to 2004. 36 (3): 309–12.
Singh, Harinder. *See* Isely, Paul.
Skidmore, Mark. *See* Anstine, Jeff.
Smith II, Harlan M., Amy Broughton, and **Jaime Copley.** Evaluating the written work of others: One way economics students can learn to write. 36 (1): 43–58.
Solnick, Sara. *See* Eckel, Catherine.
Sosin, Kim. *See* Goffe, William L.
Stone, Jack H. *See* Allen, Ralph C.

W

Walstad, William B., and **Michael Watts.** "Closing" an international economic education conference in OZ. 36 (3): 306–08.
Watts, Michael. *See* Bosshardt, William.
Watts, Michael. *See* Walstad, William B.
Weiss, Renée E. *See* Sharp, David C.
Wilson, Rick. *See* Eckel, Catherine.
Woltjer, Geert B. Decisions and macroeconomics: Development and implementation of a simulation game. 36 (2): 139–44.
